SSIS update

Social Services Information System

Issue 378

July 26, 2013

Pilot agencies use new V13.3 features

Agency staff at Carver and Dakota Counties begin piloting SSIS Version 13.3 on August 1. Some of the features that pilot agencies will help test include:

- Delphi upgrade makes general “look and feel” changes to the application, primarily through crisper font styles for grids.
- Do Not Claim (DNC) screen and report changes help counties bill Managed Care Organizations (MCOs).
- Fixes done to the RTF Editor are found in intakes, case notes, contact/activity, and adult maltreatment reports.
- The new Attached Files function allows attaching external files to the Person node and Chronology.
- Infant and Toddler Intervention screen is available from the CWB/Education/Infant and Toddler Intervention node.
- New not automated HCPCS/Modifiers are associated to the Moving Home Minnesota (MHM) Project. New activities for MHM also added to Staff Activity.
- Updated primary spell checker and related improvements are available.
- Title IV-E Abstract Report exclusions allow marking payments so they are excluded from IV-E proofing and claims.

V13.3 is scheduled for statewide release on September 3-4. Draft pilot documentation will be emailed statewide late next week and posted on CountyLink.

Fiscal Mentor Meeting

September 17, 2013

Holiday Inn, St. Cloud, 9:00 a.m. – 3:00p.m.

Registration is available on [TrainLink](#). The agenda is on CountyLink; handouts will be posted closer to the meeting. **Only 35 spots remain.** Register now!

Upload Update

The next upload is due on Wednesday, July 31. This Upload provides a quarterly Child Welfare Data Dashboard update.
