What issues/barriers are currently most critical to overcome in Roseau County to ensure that persons of all ages and disabilities have home and community-based support options?

There are no significant barriers. A "slight" barrier is lack of transportation for some of the residents who live significant distances from the city of Roseau or Warroad. There is a transportation provider but really no public transportation. Roseau County is large geographically and we have people who reside "out in the country" and are somewhat difficult to serve (transportation-wise) as they may be 15-20 miles out and need only minor services.

Highest Priority for HCBS Development:

Working with the transition to managed care organizations for the various eligible persons.
