If a pharmacist is practicing MTMS in a pharmacy, the consulting area must meet all the following privacy/space requirements. Keep a copy of this form on record.

MARK EACH BOX THAT APPLIES.	
The consulting area:	
<input type="checkbox"/>	Is of sufficient size and has accommodations to comfortably seat at least three people around a table;
<input type="checkbox"/>	Is private, so that when a typical patient is sitting or standing in the consulting area, the patient cannot be seen by others (including other patients, customers and employees);
<input type="checkbox"/>	Is entirely devoted to enhancing patient outcomes and not used as a storage room for merchandise or other non-related items
<input type="checkbox"/>	Is accessible to the patient without having to traverse through dispensing or storage areas
<input type="checkbox"/>	Is enclosed sufficiently to prevent typical patient consultation conversation from being heard from other areas of the store; and
<input type="checkbox"/>	Is enclosed sufficiently to prevent noise from other areas of the store to interfere with or distract from typical conversation in the consulting area
