Report Back to the Community:
Substance Use Disorder Treatment Reform
Statewide Community Forums

About the community meeting:
In 2015, community meetings were held across the state asking, how can we make our substance use disorder treatment system better. As a result, last summer a workgroup of providers and community members worked together on a set of policy recommendations designed to not only improve outcomes, but to also ensure program sustainability and invest scarce resources wisely. The result is the Policy Recommendations Report. We hope you can come to this meeting to review the recommendations and give us your feedback!
