# **Family Safety Plan**

## Version 11.3

Worker Mentor Meeting  
August 22, 2011

# Why

---

- ▶ Addresses specific areas related to safety concerns
- ▶ Assists workers in helping families develop a safety plan
- ▶ Used at the discretion of the worker
- ▶ Not mandated by statute, though some agencies may require with some or all families

# Who

---

- ▶ Family developed and driven

# When

---

- ▶ Safety risk present
- ▶ During assessment phase
- ▶ To supplement a service plan in cases that transition to case management

Practice	Family Safety Plan
<b>This plan was developed by:</b>	
	Arianna, Tiffany, Jack, Andrew
<ul style="list-style-type: none"><li>• <b>These are the things that make us feel unsafe, worried or afraid:</b></li></ul>	
	Arianna is worried that when she gets stressed out with Tiffany she will hit her. We feel unsafe when Jack is drinking because he calls Tiffany and Andrew bad names.
<ul style="list-style-type: none"><li>• <b>This is what our family is doing already to make sure we stay safe (the good things we do for ourselves and each other):</b></li></ul>	
	Arianna takes a break from Tiffany when she starts feeling stressed out. Arianna takes the children to the park to play. Jack has been working with his probation officer.

Entry into SSIS helps others access the plan.
