

The screenshot displays the SSIS software interface for a user named Baby Borden. The window title is "Baby Borden" and it features a standard Windows-style toolbar with icons for navigation, home, save, and printing. The interface is divided into several sections:

- Left Panel (Navigation Tree):** Shows a hierarchical view of folders and files. The "MAPCY/DOC Assessments" folder is expanded, showing a list of "MAPCY Assessments" with individual files and their dates, such as "MAPCY - 06/20/2014" and "MAPCY - 10/09/2013".
- Top Tabs:** Includes "Setup", "Document", "Scoring", "Properties", and "Comments". The "Scoring" tab is currently active.
- Main Content Area:**
  - Standard MAPCY:** Contains introductory text: "Based on this young person's score, needs, and supervision level, it is possible that this young person qualifies for one or more Extraordinary Levels. Please consider these questions:"
  - Resides with Caregiver:** A question: "Does this young person currently physically reside with the caregiver(s) in the caregiver(s) home?" with radio button options for "Yes" (selected) and "No (this child is not eligible for Extraordinary Levels)".
  - Prevents Residential Placement:** A question: "Do you certify that but for placement with this caregiver(s), this young person would be in residential placement?" with radio button options for "Yes, I so certify" (selected) and "No (this child is not eligible for Extraordinary Levels)".
  - Agency Screening:** A question: "Minnesota Statutes, sections 245.4885, 256B.092 and 260C.157 requires responsible social service agency screening teams to determine the child's level of care. Did the agency screening team or the comparable process conducted by a tribal social service agency determine the child's level of care need would be residential placement WITHOUT the parental care of this caregiver?" with radio button options for "Yes", "Pending" (selected), and "No (this child is not eligible for Extraordinary Levels)".
  - Description of Care:** A text input field containing the word "test".
- Right Panel (Summary):**
  - Status:** A dropdown menu set to "Draft".
  - Standard Benefit Level:** A dropdown menu set to "H".
  - Extraordinary Level Increase:** A dropdown menu set to "1".
  - Final Benefit Level:** A dropdown menu set to "I".
  - Score:** A button labeled "Score".
- Bottom Panel:** An "Action" dropdown menu.

The screenshot displays the 'Scoring' tab in the SSIS software for 'Baby Borden'. The left-hand navigation pane shows a hierarchical folder structure, with 'MAPCY/DOC Assessments' and 'MAPCY Assessments' expanded. The main content area features a table of scores for various domains, categorized into 'Standard MAPCY' and 'Extraordinary Levels'. Below the table, there are several input fields and dropdown menus for setting benefit levels and status.

Domain	Needs Rating	Indicator Rating	Regular Points	Special Points	Total Points
A. Placement Experience	b	Significant	5		5
B. Dynamics in the Caregiver's Home	c	Significant	5		5
C. Supervision, Guidance, & Structure	c	Extensive	11	3	14
D1. Mental Health	d				
D2. Physical Health	c	Extensive	10	15	25
D3. Development	a				
E. Preserving Connections	b	Extensive	5		5
F. Developing Identity	b	Exceptional	5	5	10
G. Education	b	Extensive	3	4	7
			44	27	71

Below the table, the following fields are visible:

- Score: [Starting Benefit Level: H]
- Child Care Level Increase: [0]
- Standard Benefit Level: [H] Status: [Draft]
- Extraordinary Level Increase: [2] Status: [Draft]
- Final Benefit Level: [J]
