

**MAPCY
ENHANCEMENTS
SSIS 15.3**

- AGENDA**
- MAPCY Scoring Adjustments
 - Extraordinary Levels Calculation
 - Tracking Extraordinary Levels Requests
 - MAPCY Text Cleanup
 - MAPCY Rating Report – Printing and Emailing

- MAPCY SCORING ADJUSTMENTS**
- Domain U (Young Parents) which was previously only available in the EFC-SIL assessment tool has become Domain I in both the EFC-SIL tool and the Youth tool.
 - Measures the support for parenting foster youth *living* with their child/ren when an agency does *not* have placement, care and supervision responsibility for a youth's child/ren.

MAPCY SCORING ADJUSTMENTS

- Domain I adds 0, 20 or 30 points to a youth's MAPCY score, resulting in more supports for them as they parent their child/ren.

Youth's Child Indicators

CHECK ONE:

a. Youth is not a parent or is a parent, but the child is not living with them.

b. Youth is a parent, and their child is living with them.

c. Youth is a parent, and two or more of their children are living with them.

Explain if you selected b or c

4

EXTRAORDINARY LEVELS CALCULATION

Calculation process has been adjusted to appropriately factor in the indicators of:

- Education
- Service Access I
- Services Access II
- Medically Dependent I

- For any/all Extraordinary Level requests explored and/or submitted by agencies that resulted in a "0" increase:
 - Set the Extraordinary Level request back to "Draft" status
 - Rescore the tool
 - Certify and submit to DHS for review and approval

5

TRACKING EXTRAORDINARY LEVELS REQUESTS –

- **Extraordinary Levels Log**
 - Located under Searches/Logs
 - Tracks Extraordinary Levels requests where "Clarification Needed" is requested by DHS and action is required by the agency.
