

SSIS LICENSING TRAINING CHANGES

V15.3

LICENSING TRAINING

Licensed Child Foster Care (CFC) Providers in Child Foster Care Assessment or Case Management workgroups have required Licensing trainings.

To document these trainings, expand the CFC client folder and the License Training folder displays.

Previously, there were a limited number of trainings listed to record.

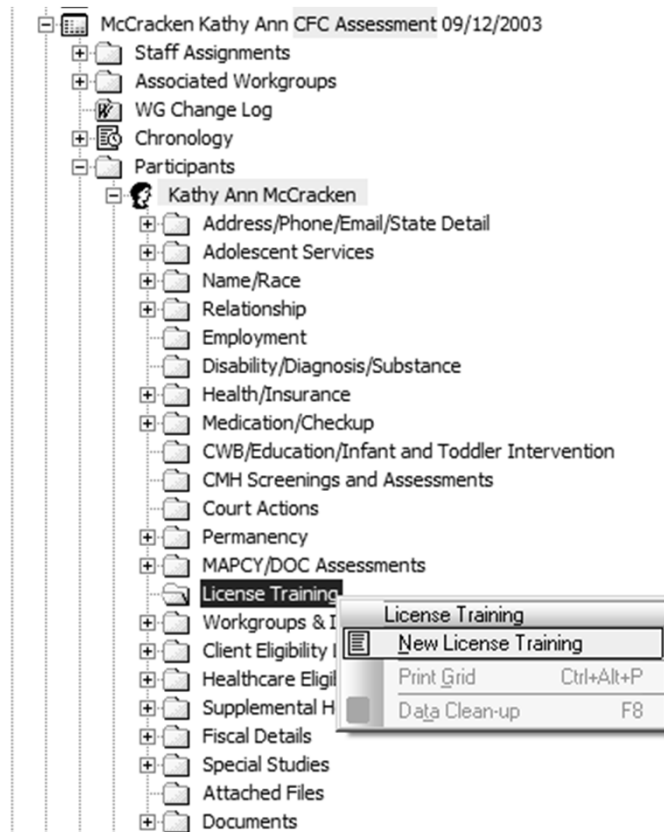

Training is entered and tracked for each individual who is a foster parent, volunteer, staff person, helper or other required individuals indicated by the Licensing Division.

Aside from the license holder, all staff, all foster parents, and other individuals living in the home are entered in the workgroup.

It also helps to have all of those persons in the workgroup when it comes time to do background checks on persons in the household 13 and older. This occurs when the home/facility is being re-licensed.

WHY TRACK LICENSE TRAINING?

ACCESSING LICENSE TRAINING FOLDER AND CREATE A NEW LICENSE FOR A PROVIDER

NEW LICENSE TRAINING SCREEN FIELDS

Date of Training:	Course Name:	Hours:	<input type="checkbox"/> Required

Expiration Date:			
<input type="text"/>			

REQUIRED COURSES

The Course Name field now lists required training courses.

The following courses have been removed from the list but will continue to display on existing License Training records for a Participant:

- CPR (Child)
- Combined CPR and First Aid (Child)

INCREASED LICENSING TRAINING OPTIONS

A Course Name is required. All other fields are optional entries.

FREE TEXT ENTRY FOR LOCAL AGENCY TRAININGS

The image shows a screenshot of a web-based form for training registration. The form has a light gray background and contains several input fields and a dropdown menu. On the left side, there are three vertically stacked fields: 'Date of Training:' with a date picker, 'Sponsored By:' with a text input, and 'Expiration Date:' with a date picker. In the center, the 'Course Name:' dropdown menu is open, displaying a list of training options. The selected option is 'Lake of the Woods County Introduction - Resource Families'. To the right of the dropdown, there is a 'Hours:' field with a text input and a 'Required' checkbox. The dropdown menu lists the following options: 'AHT (abusive head trauma)', 'Behavior guidance', 'Care of individuals on medical monitoring equipment', 'Child growth and development', 'Child growth and development and behavior guidance', 'Child passenger restraint training', 'Combined CPR and First Aid', and 'Combined CPR/first aid- including techniques for infants/children'. The form also features a search icon and a small '0' next to the Hours field.
