C1.1 Reunification in Less Than 12 Months for Children Exiting Foster Care

Reunification in Less than 12 Months for Children Exiting Foster Care

National Standard 75.2% or higher

Measure C1.1 Exit to reunification in less than 12 months.

Of all children discharged from foster care to reunification in the calendar year who had been in foster care for 6 days or longer, what percent were reunified in less than 12 months from the date of the most recent entry into foster care? This includes children who were reported to AFDC/MA as being placed in a trial home visit in less than 11 months from the date of removal from the home when they remained in the trial home visit until discharge to reunification.

0.0% means the county had children that qualified but failed to score any points on the measures.

No Data means the county had no children that qualified and therefore had no participation in the measure.

C1.2 Median Stay in Foster Care to Reunification

Median Stay in Foster Care to Reunification (months)

National Standard 5.4 or under

- 0 No Data
- 0.1 - 5.4 Months
- 5.5 - 11.9 Months

Measure C1.2 Extra: reunification median stay
C1 all children discharged from foster care to reunification in the calendar year who had been in foster care for 5 days or longer, what was the median length of stay (in months) from the date of the last report entry into foster care until the date of reunification? For foster care visits, the length of stay for each child is calculated from the date of removal from home to the date the child was reported to AOCARS as being placed in the home visit. If the visit was placed last longer than 30 days and if it is last placement setting before the child's discharge to reunification. 0.5 means that the county had children that qualified but failed to score any points on the measure. No Data means that the county had no children that qualified and therefore had no participation in the measure.
