

MAPCY Changes in 16.3

MAPCY Search

- Available from Search/Logs Menu or Task Panel
- A user is able to search for MAPCY's using multiple search criteria
- Search icon: 

Default filter includes MAPCY assessments with effective date in the past 30 days

SSIS Worker Mentor Meeting 9/7/2016

MAPCY Search cont.

- This is a new type of search for workers and approvers
- Only for MAPCY's that are begun (draft) through final approval
- Advanced filters workers may not be familiar with
 - Date filter (previous 30 days) by default – must change this manually each time if you wish to expand the search
 - Secondary date filter – superseded by first date filter
 - Purpose – From the MAPCY set-up screen, determines what the MAPCY is being used for
 - Agency Approver – Approvers may select themselves
- Entire MAPCY is visible for review after clicking on search results
- Fiscal workers can use it for service arrangements and payment statuses

General Reports

- MAPCY due date is not a search criteria
 - "Assessments Due – MAPCY or DOC" report can be used to determine a due date by the effective date. Found in General Reports

Approval Log

- The Approval Log tree view for MAPCY Assessments and Extraordinary Levels is updated to include Child Name, not just dates.
- Displays on the approval log for those with admin function of approval.
- You don't have to click on MAPCY to see who it is related to.
- As soon as it is sent for approval, it displays on the approval log for those with admin function of approval.

6

Post Permanency Reassessment Log cont.

- New column picker options reflect the 3 different MAPCY age ranges for reassessment approval and calculated benefit levels. (0-6, 7-12, 13+)
- Displays on individual record
- Status
 - Reassessment Initiated is when the it has been sent to the county
 - Reassessment Not Implemented means that the MAPCY level came back as equal or less than the current benefit level
 - MAPCY Completed means the MAPCY has been completed but the new level has not been entered in SSIS DHS
 - Amendment Completed means the new MAPCY level has been entered in SSIS DHS (assume an amendment has been sent to the parent/custodian)
