

SSIS 16.3 Court Filing Redaction

Phase 1

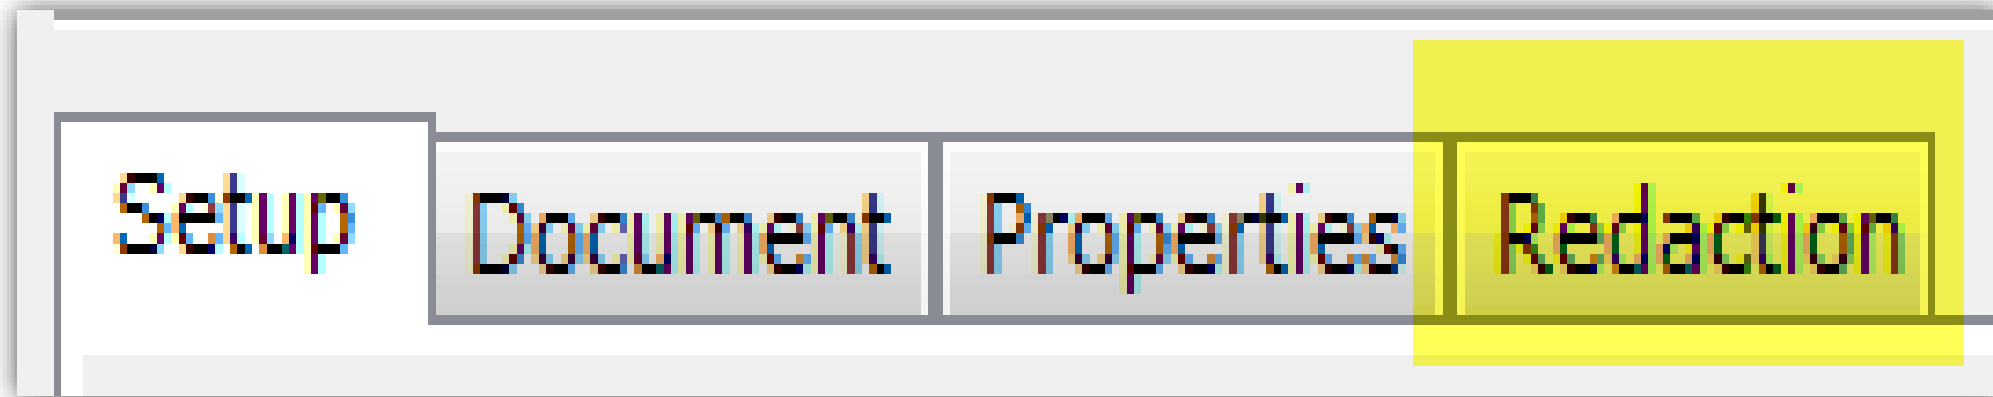

- Redact information that is merged into the document.
- Applies to any document like functions, such as:
 - ❖ HTML documents
 - ❖ RTF documents
 - ❖ Service Plans
 - ❖ MAPCY
 - ❖ Adoptions
 - ❖ Kinship

Phase 2

- RTF text of documents and service plans
- Future implementation
- No definite release is set

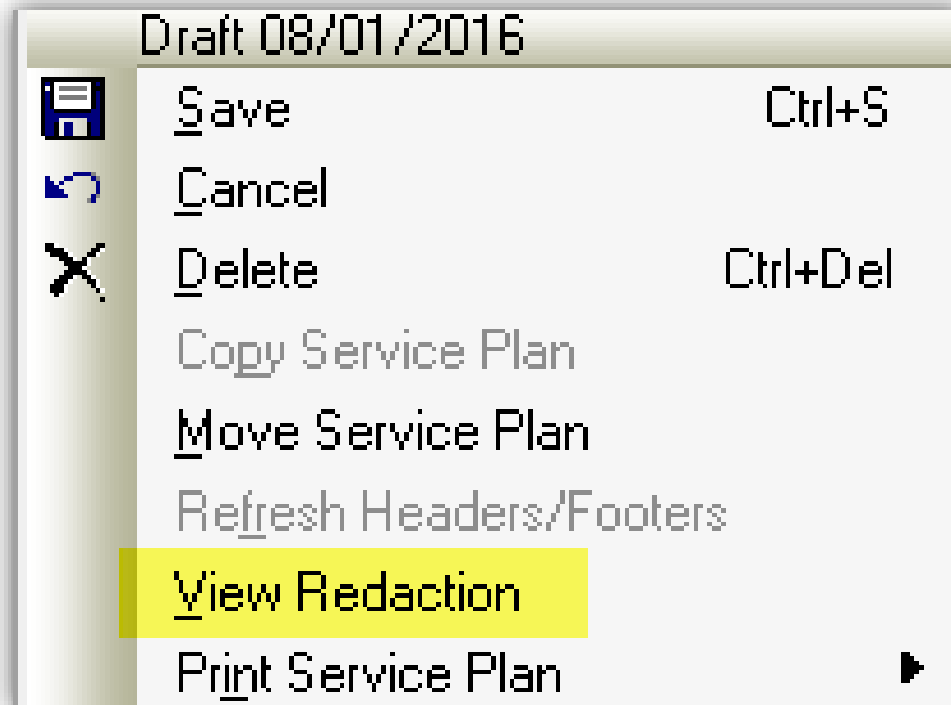

16.3 Implementation

- A new tab displays on Documents, Service Plans, MAPCYs, and Northstar Adoption/Kinship Assistance Eligibility Determinations:

Action Menu

- In the "Action" menu on the "Setup" tab, an option to "View Redaction" displays:

Setup Screen

- When selected, redaction fields display next to merge fields. These fields are editable.

The screenshot shows a software interface with a light gray background. At the top left, the word "Child" is displayed in a dark gray font. Below this, there is a horizontal bar containing several elements. On the left, the word "Participant:" is written in blue, underlined text. To its right is a white text input field containing the text "Alexander, Grant Jeremy". To the right of the input field are three small icons: a downward-pointing triangle, a document icon, and a circular refresh icon. Further to the right is a yellow rectangular field containing the text "Child".

Redaction Tab/ Redaction Key

- The "Redaction Key" displays four columns.
- "Redaction Text" displays text entered in the redaction fields on the "Setup" tab, and can be further edited on this tab directly in the grid.
- "Original Text" displays the merge field data before redaction.
- The "RTF Tag" column is for a future change to redaction, and can be ignored for now.
- Select the "Active" checkboxes to choose which fields to redact.
