THE BALANCING ACT:

finding the balance between Important TO and Important FOR
The core concept:

Important to and Important for and the Balance between them
Sorting important to from important for (and finding a better balance between them)

<th>Important For</th>

What is important to a person includes those things in life which help us to be satisfied, content, comforted, fulfilled, and happy. It includes:

- People to be with /relationships
- Things to do & places to go
- Rituals or routines
- Rhythm or pace of life
- Status & control
- Things to have
Important TO

- Includes what matters the most to the person – their own definition of quality of life.

- What is important to a person includes only what people “say”
  - with their words
  - with their behavior

**When words and behavior are in conflict, pay attention to the behavior and ask “why?”**
Important FOR

- **Issues of health:**
  - Prevention of illness
  - Treatment of illness / medical conditions
  - Promotion of wellness (e.g.: diet, exercise)

- **Issues of safety:**
  - Environment
  - Well being ---- physical and emotional
  - Free from Fear

- **What others see as necessary to help the person:**
  - Be valued
  - Be a contributing member of their community
Health and safety dictate lifestyle
Balance

Important to and for are connected

- Important to and important for influence each other
- The sequence matters: start with important TO
- No one does anything that is “important for” them (willingly) unless a piece of it is “important” to them

Balance is dynamic (changing) and always involves tradeoffs:
- Among the things that are “important to”;
- Between important to and for
Finding the balance

- We all make tradeoffs between the many different things that are important to us.
  - Some people may love living in a particular place and are willing to make the tradeoff when living there means a longer commute to work.

- We also make tradeoffs between what is important to us and what is important for us. These tradeoffs can be temporary OR long term solutions.
  - Expressing personal opinions and speaking my mind is important to me, but not cussing in front of my neighbors is important for me.
As we think about choice, we can see
- All choice is irresponsible (happy and dead)
- And dictating lifestyle is unacceptable (alive and miserable)

**Good support means finding the balance**
- We all have a right to make choices, even bad choices
- We are paid to “help people stay safe”
- Finding the balance can create conflict
Choice has boundaries

- There is no “unfettered choice,” for any of us
- The question is always: where should the boundaries be drawn?
- The boundary is impacted by many factors
  - Laws
  - Values
  - Resources
  - Ripple Effect (how choices impact others, such as partners, roommates, coworkers, etc.)
  - Personal Safety
  - Public Safety

Dawn’s story

**IMPORTANT TO**

- Jehovah/God
- Studying the bible
- Socializing
- Visiting Mom, talking to her every day
- Taking pictures
- Shopping for people. I love getting stuff for people.
- Shopping, looking + buying
- Trying new things
What’s your experience?
We asked people to share...

- When it really worked!
  - When a good balance was discovered
  - When discovered “the hook” (the important to that motivates a person to do the important for)

- Where you are struggling
  - To find “the hook”
  - To engage a team in discovery
Some people said...
This has worked when...

- “Start with important to instead of important for”
- “Listening for the hook and asking more questions”
- “The person drives the process”
- “We were able to be creative”
  - Example:
    - Important to: Being a Vikings fan, painting room gold and purple to express it
    - Important For: Others say important for person to clean room.
    - The connection -Being able to decorate bedroom in Vikings theme contributes to liking bedroom, ownership of room and the desire to keep bedroom cleaner.

Questions: Use Q&A Panel and send to "All Panelists"
Some people said...
This has worked when...

- “We really need to listen, without judgments”
- The person decided they wanted to do things important for them
  - Example:
    - Important to: to be one of the guys at work
    - Important for: shower and smell better
  - The connection- He likes being with the guys at work and decided to shower every day so they guys would want to be around him
• We supported someone and didn’t try to fix them”

- Example:
  - Important To: cats – Buttons and Tatters, and important to live in an apartment where she can have her cats
  - Important For: important for person to do activities to manage anxiety.

- The connection - Spending time with cats, holding them, petting them, taking care of them is calming to person and she says “therapeutic”. Having her cats with her helps her manage her anxiety.
This has been a struggle...

- “You can’t act like a ‘parent’”
- “We didn’t check our own values”
- “We started with Important for because that is what the Dr. said”
- “the team was not bought into the process”
- “When teams use contingencies, like if you want to do this, then you have to do that.”

Questions: Use Q&A Panel and send to "All Panelists"
There is not ONE right answer

- Be gentle: with yourself and with others
- Don’t blame the person: if we haven’t discovered it YET, keep trying!
- Discovery never stops
- The right balance changes as we learn and grow
