6. Health Conservator renamed ......................................................................................................................................................... 8
1. Acronyms: Change from PDN to HCN

In the Referrals Reason/Intake Summary Question Services and Supports, the MnCHOICES - Assessment uses the acronym PDN (Private Duty Nursing), in this release, PDN has been changed to HCN (Home Care Nurse) to conform to statute. For example:

Before 16.4

MnCHOICES 16.4
2. *Intake, Decision Making/Guardianship & Emergency text cut off*

In the Intake, Decision Making/Guardianship & Emergency Contact, the first choice option: "Child Protection Order in Place - county has legal custody, parent may retain parental rights" was being displayed with text 'cut off'. This has now been fixed so all text is shown.

**Before 16.4**

**MnCHOICES 16.4**
3. New LTC SDOC Field

In the LTC Screening Document of the Client Information Group, a new check box choice option of: 21- “PCA or Health Care” has been added to LTC SDOC Field #26 “Reasons For Referral” This is a new MMIS value.

Before 16.4

Client Information

26. REASONS FOR REFERRAL: Choose 1 or 2 reasons

- 16 - Health status change
- 17 - Transition to HWS consult
- 19 - LOC appeals authorization
- 20 - MCO enrollee requested assessment
- 98 - Other problems

MnCHOICES 16.4
4. ICD Code Text Box not Displaying

In the Health Domain; Symptoms, Conditions & Diagnosis; Surgery; Has the person had any surgery? Yes; The surgery is on record: The ICD code was not displaying if the “On record” choice for surgery was selected. Now, if a user selects "On record" to the question: 'The surgery is:', a second-level text-box now displays with the text: ICD Code:

Before 16.4

5. “Other” Text Boxes Don’t Display

In the Housing and Environment domain, when the user selects “other”, no text box is provided to use for explanation. There are three instances:

1. Select setting that describes person’s current housing, when a user selects “own housing” and “other” no text box is provided.
2. Select the setting that describes the person’s current housing select “congregate setting” and “other”, again, no text box appears.
3. Select description, “institution” and for “other” no text box appears.

Before 16.4
MnCHOICES 16.4

Text boxes are provided like the example below in the following Housing and Environment domain:

1. Select setting that describes person’s current housing, select “own housing” and “other” – text box provided.
2. Select the setting that describes the person’s current housing, select “congregate setting”, and “other” – text box provided.
3. Select description, “institution” and for “other” – text box provided
6. Health Conservator renamed

In the LTC SDOC, field #15, under the client information, “Health Conservator” has been changed to “Health Care Agent”.

Before 16.4
