| 1. | Required Question on LTC, DD, and PCA domains | Prior to this push, assessors needed to answer yes/no on the following questions in order for them to be able to Determine Eligibility:  
  i. "Do you want to complete a DD screening document for this assessment?"  
  ii. "Do you want to complete a LTC screening document for this assessment?"  
  iii. "Do you want to complete a PCA Service Agreement for this assessment?" | With this release, these questions are no longer *mandatory* in order for a user to Determine Eligibility.  
HOWEVER, you will still be required to answer the question “Yes” if you want to populate that particular screening doc or service agreement. This is still how it operates today | ☒ Fix  
☐ Enhancement |

| 2. | NEW AC CITIZENSHIP REQUIREMENTS: BULLETIN 15-25-01. | Effective 7/01/2015, there is a new MMIS Process for Verification of Citizenship or Immigration Status for AC and ECS (Essential Community Supports). | The following content has been added to MnCHOICES:  
**A. New Choice Options**  
A new valid value (choice option): "49 - Citizenship verified" has been added to ALL of the following questions in the Domain "LTC Screening Doc" under the Group "Screening/Assessment Information & Results":  
75A. ASSESSMENT RESULTS AND EXIT REASONS  
75B. ASSESSMENT RESULTS AND EXIT REASONS  
78. CLIENT CHOICE  
79. GUARDIAN CHOICE  
80. FAMILY CHOICE  
81. LTCC/IDT RECOMMENDATIONS  
If the new choice option "49 - Citizenship verified" is chosen or selected by user, it will populate the LTC Screening Doc in the corresponding/related fields above.  
**B. New Question**  
A new question; "113. Citizenship", has been added in the domain "LTC Screening Document" under the group "Service Plan Summary"  
The valid values for the new field are:  
1 – Person is a US citizen  
2 – Citizenship is pending  
3 – Person is not a US citizen  
If answered, the selected choice option will populate the LTC Screening Doc field #113. | ☒ Fix  
☐ Enhancement |

| 3. | LTC SCREENING DOC DOES NOT MATCH DHS3427                           | A choice option for the question "Program License" was not displaying correctly in the MnCHOICES assessment and therefore, if chosen, was not displaying correctly in the field 034 of the LTC Screening Document. | The content read: "03 - Foster Care, corporate"  
The content NOW reads: "05 - Foster Care, corporate". It will also display this way, if chosen, in field 034 of the LTC Screening Document.                                                                 | ☒ Fix           |
| 4. | TYPO IN LTC SCREENING DOC                                           | There is a typo in the “notes column” of the LTC Screening Doc tab in MnCHOICES – under Field 48. "Clinital" monitoring not required.                                                                                                                                  | Correction made to word “Clinital” to “Clinical”                                                                                                                                         | ☒ Fix           |
| 5. | Medication management for people with diabetes                      | Current question in the MnCHOICES assessment: "How does the person control their diabetes?"                                                                                                                  | The question has been moved:  
FROM:  
Domain: IADLs  
Group: Medication Management  
The question only appeared AND became required if the assessor answers 'yes' or 'sometimes' to the overall question of "Does the person need assistance with medication management?"  

TO:  
Domain: Health  
Group: Medications  
The always appears and is NOW always required in order for an assessor to question NOW complete an assessment and successfully run eligibility. | ☐ Fix           |

The >>> symbol indicates an especially noteworthy improvement

| 6. | New assessment prepopulating all answers from any previous assessment - no way to track what domains have been reviewed | The decision has been made to add the "**this group has been reviewed and updated**" question and checkbox to the following document types: and make them mandatory all the time:  
  - New Assessment  
  - HRA Full  
  - Reassessment (no change)  
  - Eligibility Update (no change)  
Prior to this push, for assessment types Reassessment or Eligibility Update, a question would appear at the bottom of every group such as:  
  - “Eating has been reviewed and updated?”  
  - “Bathing has been reviewed and updated?”  
  - “Vision has been reviewed and updated?”  
After this push, these questions will appear at the bottom of most every group, for all the assessment types listed above, therefore, it was also appear for New assessments.  
**These types of questions will NOT appear in the following Groups:**  
**Domain: ADLs**  
- Eating Equipment  
- Bathing Equipment  
- Dressing Equipment  
- Personal Hygiene/Grooming Equipment  
- Toilet Use/Continence Support Equipment  
- Mobility - Walking and Wheeling Equipment  
- Positioning Equipment  
- Transfers Equipment  
**Domain: IADLs**  
- Medication Management  
**Domain: Caregiver**  
- Caregivers  
- Caregiver Interview  
- Referrals & Goals (Caregiver)  
**Domain: DD Screening Document**  
- Case Information - Assessment Section  
- Current/Planned Services (DD)  
**Domain: LTC Screening Document**  
- Client Information  
- Screening/Assessment Information & Results  
- Service Plan Summary  
**Domain: PCA Service Agreement**  
- Personal Care Assistance (PCA) | ☐ Fix  
☒ Enhancement |

<tr>
<td>7.</td>
<td>Data Export Workflow Only doesn't include Person Demographics, and All Options are missing Doc ID, Status and Disposition</td>
<td>Depending on which options users chose for the Data Export, they may or may not get any of the Person Demographics data, see below. For all export files the Assessment ID shows in the raw XML, but when it is viewed in Microsoft Excel there is a bug that prevents it from being shown. Obviously things like ID, First and Last Name etc... are required.</td>
<td>Workflow data and demographic data will now appear in excel, when user performs a data export.</td>
<td>☒Fix</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>&gt;&gt;&gt;&gt;It is important to note that user must select (&quot;check&quot;) the Enable for use with Microsoft Office check box prior to the export if they want to view the export in excel. Failure to do so will not allow user to open or view the xml in Excel</td>
<td>☐Enhancement</td>
</tr>
<tr>
<td>8.</td>
<td>PRINT FUNCTIONALITY - ALL DOMAINS PRINT WHEN ONLY ONE SELECTED</td>
<td>An issue with users not being able to print one or multiple selected domains only for the Assessment report has been fixed.</td>
<td>By default, the Select All button will be checked as well as all listed Assessment domains. &quot;Unchecking&quot; or &quot;Unselecting&quot; the Select All checkbox will clear the checkboxes for all the domains which allows the user to select the domains they would like to view and print.</td>
<td>☒Fix</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Additional Information: The user selections will remain intact while they have the person's record in view or moving between tabs for that record. Once user moves out of the record completely, the user selections will be cleared out and the Assessment report selection will revert back to the default of Select All.</td>
<td>☐Enhancement</td>

| 9 | Intake Face Sheet | Users requested a more condensed version of the Intake Face Sheet.                 | Intake Face Sheet is now available to users. This can be accessed from within an Intake via the "Print tab".  
1. Users will see an Intake Face Sheet button.  
2. Upon clicking on this button, a second button “View Intake Face Sheet” will appear.  
3. Intake Face Sheet will appear in the viewer. Note: User can adjust the view settings.  
User will have options to Print, or Save to PDF.                                                                           | ☒ Fix
