

MinnesotaCare:

No provisions.

MA:

People age 65 and older who are currently enrolled in the Prepaid Medical Assistance Program (PMAP) will remain enrolled in their same health plan with the same basic care services. Minnesota SeniorCare will replace PMAP for people age 65 and older.

Minnesota SeniorCare Plus is in the 20 County Based Purchasing (CBP) counties. The counties are: Big Stone, Brown, Dodge, Douglas, Freeborn, Goodhue, Grant, Itasca, Kanabec, McLeod, Meeke, Pipestone, Pope, Renville, Sibley, Steele, Stevens, Traverse, Wabasha and Waseca.

People age 65 and older in these counties will continue to receive the same basic care services. However, home and community based services delivered through the Elderly Waiver (EW) and longer nursing home stays (180 days) will be covered by the health plan. Minnesota SeniorCare Plus also incorporates new requirements of providers including health screenings, care management and quality assurance activities. Enrollees should contact their health plan with questions about the changes or to request services.
