

## Resource: Integrated community supports (ICS) settings

Page updated: 3/3/22

This page is a resource for lead agencies and people who use services to find information about integrated community supports (ICS) settings that have an approved setting capacity report, including:

- Location.
- Capacity.
- Whether a site-specific review was required and completed.
- Whether a setting is enrolled to deliver ICS services.

This page is broken into two sections: [enrolled ICS settings](#) and [not enrolled ICS settings](#). All ICS settings must be enrolled separately to deliver services. ICS services **cannot** be authorized at settings that are not enrolled with Minnesota Health Care Programs (MHCP).

To search for a specific provider on this page, use the keys Ctrl + F (Windows) or Command + F (Mac).

DHS updates this page on a monthly basis. To confirm a setting's enrolled, search

[MinnesotaHelp.info](#).

### Policy

ICS settings are provider-controlled home and community-based services (HCBS) settings. Each setting must have an approved setting capacity report.

ICS may be provided in:

- All of the living units in a multi-family housing building that has three or four units
- Less than 25% of the living units in a multi-family housing building that has five or more units
- 25% or more of the living units in a multi-family housing building that has five or more units when DHS has approved a [site-specific review](#).

For additional policy requirements, refer to [CBSM – ICS](#).

### Enrolled ICS settings

These settings are both approved by the DHS Disability Services Division (DSD) and enrolled with MHCP to provide ICS. Case managers must contact the provider for the setting-specific NPI/UMPI to enter a service authorization.

Provider name	HCBS license number	Addresses	City	Zip code	DHS-approved number of provider-controlled units	Total number of units	Capacity	Site specific review completed?	Enrolled?

### Not enrolled ICS settings

These settings are approved by DHS DSD, but they are not enrolled with MHCP and do not have an NPI/UMPI assigned. Case managers cannot authorize ICS services at locations that are not enrolled.

To confirm the enrollment status of settings in the following table, search [MinnesotaHelp.info](http://MinnesotaHelp.info).

If a provider believes their ICS service setting is listed in error, they should contact the [MHCP](#)

[Provider Resource Center](#).

Provider name	HCBS license number	Addresses	City	Zip code	DHS-approved number of provider-	Total number of units	Capacity	Site specific review completed?	Enrolled?
