TERMINOLOGY NOTICE

The terminology used to describe people we serve has changed over time. The Minnesota Department of Human Services (department) supports the use of "People First" language.

I. Public input

The Minnesota Department of Human Services (department) hereby gives notice of the SSBG report to Minnesota citizens for review and comment. To fulfill federal public input requirements, the department publishes this annual SSBG report pursuant to Title XX, section 2004, of the Social Security Act (as enacted in the Omnibus Budget Reconciliation Act of 1981, [Public Law Number 97-35] codified at 42 United States Code (U.S.C.) 1397c). This report reflects:

- Actual Social Services Block Grant expenditures for state fiscal year (SFY) 2022, from July 1, 2021, through June 30, 2022.
- The department's plans to expend Social Services Block Grant funds for SFY 2023, from July 1, 2022, through June 30, 2023.

Because funds are administered at the county level, county agency staff must review and make available to the public the contents of this report and solicit public comment on use of SSBG funds. This can be incorporated in on-going quality control and public input processes agencies have in place. A variety of means can be used to solicit public comment, including newspaper articles/ads; county websites; community meetings; public hearings; board, advisory, and partner agency meetings; public notice; radio public service announcements; client survey/complaints; letters to providers; annual county conference; and word of mouth.

Public comment and feedback on state guidelines for use of SSBG funds should be sent to:

Andrew Richter, Communications Coordinator
Child Safety and Permanency Division

II. Background

Social Services Block Grants enable each state to meet the needs of its residents through locally relevant social services. These grants support programs that allow communities to achieve or maintain economic self-sufficiency to prevent, reduce, or eliminate dependency on social services.

A. Services funded by SSBG must be directed at one or more of five broad statutory goals that include:

- Achieving or maintaining economic self-support to prevent, reduce, or eliminate social service dependency
- Achieving or maintaining self-sufficiency, including reduction or prevention of social service dependency
- Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interest, or preserving, rehabilitating, or reuniting families
- Preventing or reducing inappropriate institutional care by providing community- and home-based care, or other forms of less intensive care

- Securing referral or admission for institutional care when other forms of care are not appropriate or providing services to individuals in institutions.

B. Vulnerable Children and Adults Act (VCAA)

The 2003 Minnesota Legislature enacted the Children and Community Services Act (CCSA) which consolidated 15 separate children and community services grants, including SSBG, into a single consolidated fund. This gave county agencies more flexibility to ensure better outcomes for children, adolescents, and adults in need of services. The 2011 Minnesota Legislature revised CCSA, creating the Vulnerable Children and Adults Act, [Minnesota Statutes, Chapter 256M](#), establishing a fund to address the needs of vulnerable children (including adolescents) and adults.

Social Services Block Grant funds are administered under Vulnerable Children and Adults Act service plans through county social services agencies. Service plans were submitted to the department in 2012 and remain on file. Plans must be updated, as needed, to reflect significant changes in county policy and procedures regarding requirements and use of funds. County social service agencies use local funding and other revenue sources to supplement the consolidated grant to meet client needs.

III. Use of funds

A. Fees

The following persons are eligible for services and not charged a fee, including recipients of:

Minnesota Family Investment Program (MFIP)

- Minnesota Supplemental Assistance
- General Assistance

In addition to the above:

- Persons who adopt a hard-to-place or special needs child
- Children birth through age 2 with disabilities and receive core early intervention services under Part C of the Individuals with Disabilities Education Act. [[20 United States Code § 1400, et seq.](#)]

Department staff developed a social service income eligibility and fee schedule based on Federal Poverty Guidelines. The most recent fee schedule, bulletin [#23-69-01](#), was published April 20, 2023. County agencies have the option of using that schedule or developing a fee schedule of their own.

B. Services

The following 29 Budgeting, Reporting and Accounting for Social Services (BRASS) categories are reported for SSBG. Descriptions of each BRASS Code are in the department's recent BRASS publication, bulletin [#21-32-03](#), published Dec. 14, 2021.

Limitations on use of SSBG grants are in Title XX of the Social Security Act, Block Grants to States for Social Services. [[42 United States Code § 1397d](#)]

IV. Expenditure reports

These reports show expenditures and recipients served during SFY 2022 and intended use of funds for SFY 2023.

A. Post-expenditure reports

The first attachment provides data on SFY 2022 expenditures and recipients served by the Social Services Block Grant.

In SFY 2022, Minnesota’s SSBG funding was \$32 million (\$27.45 million in Title XX allocation, plus \$4.79 million in Temporary Assistance for Needy Families (TANF) transfer funds). A summary of SFY 2022 SSBG expenditures is as follows:

- 0.4%, \$140,000 allocation for ICWA Law Center
- 0.8%, \$266,734, for migrant daycare services
- 3.5%, \$1,142,911, used by the department for administration and programs
- 95.2%, \$30,686,369, used by county agencies for provision of services.

SSBG funding represents a small portion of total funding expended for social services in Minnesota. In SFY 2022, SSBG funding accounted for about 5.5% of the \$583 million expended for social services considered eligible under the SSBG federal categories of services classification.

B. Pre-expenditure reports

Federal SSBG rules require each state to report on their intended use of state payments, including information on types of activities to be supported and individuals to be served.

The Pre-expenditure Report in Attachment two provides an estimate of expenditures and recipients served. SSBG SFY 2023 pre-expenditures were projected based on actual expenditures and recipients for state fiscal year 2021. Should Congress elect not to fund SSBG at the same level, or if other contingencies arise, allocations may be adjusted. Included in the reports is transfer of TANF into SSBG. No state or local match is required for SSBG.
