

Rehabilitative Service Codes for Occupational Therapy, Physical Therapy and Speech-Language Pathology

Revised: [January 22, 2024](#)

There are no requirements for medical authorization for outpatient rehabilitative and therapeutic services — physical therapy, occupational therapy and speech-language pathology professional services.

Occupational Therapy, Physical Therapy and Speech-Language

Code	Required Modifier	Description
90901	GO, GP	Biofeedback training by any modality. For billing electromyography biofeedback only. Not to be used to bill nerve impulse, blood pressure, blood flow, brain waves or oculogram biofeedback. Description of service must be included on claim
90912	GO, GP	Biofeedback training, perineal muscles, anorectal or urethral sphincter, including electromyography (EMG) and/or manometry, when performed; initial 15 minutes of one-on-one contact with the patient
90913	GO, GP	Biofeedback training, perineal muscles, anorectal or urethral sphincter, including EMG and/or manometry, when performed; each additional 15 minutes of one-on-one contact with the patient. (List separately in addition to code for primary procedure)
92507	GN	Treatment of speech, language, voice, communication or auditory processing disorder; individual
92508		Group, 2 or more individuals
92521	GN	Evaluation of speech fluency (for example, stuttering, cluttering)
92522	GN	Evaluation of speech sound production (for example, articulation, phonological process, apraxia, dysarthria)
92523	GN	Evaluation of speech sound production (for example, articulation, phonological process, apraxia, dysarthria) with evaluation of language comprehension and expression (for example, receptive and expressive language)
92524	GN	Behavioral and qualitative analysis of voice and resonance
92526	GN, GO	Treatment of swallowing dysfunction or oral function for feeding
92626	GN	Evaluation of auditory rehabilitation status; first hour
92627		Each additional 15 minutes (list separately in addition to code for primary procedure)
92630		Auditory rehabilitation; prelingual hearing loss
92633		Postlingual hearing loss
97533	GN, GO, GP	Sensory integrative techniques to enhance sensory processing and promote adaptive responses to environmental demands, direct patient contact by provider – 15 minutes
92597	GN	Evaluation for use or fitting of voice prosthetic device to supplement oral speech
92605		Evaluation for prescription of non-speech generating augmentative and alternative communication devices, face-to-face with patient; first hour
92618		Each additional 30 minutes (list separately in addition to code for

		primary procedure)
92607		Evaluation for prescription speech-generating augmentative and alternative communication device, face-to-face with the patient; first hour
92608		Evaluation for prescription for speech-generating augmentative and alternative communication device, face-to-face with the patient; each additional 30 minutes (list separately in addition to code for primary procedure)
92610	GN, GO	Evaluation of oral and pharyngeal swallowing function
92611		Motion fluoroscopic evaluation of swallowing function by cine or video recording
92612	GN	Flexible fiber optic endoscopic evaluation of swallowing by cine or video recording
92614		Flexible fiber optic endoscopic evaluation, laryngeal sensory testing by cine or video recording
92616		Flexible endoscopic evaluation of swallowing
95851	GO, GP	Range of motion measurements and report; each extremity (excluding hand) or each trunk section
95852		Range of motion measurement – hand, with or without comparison to normal side
96105	GN	Assessment of aphasia (includes assessment of expressive and receptive speech and language function, language comprehension, speech production ability, reading, spelling, writing, for example, by Boston Diagnostic Aphasia Examination) with interpretation and report, per hour
96110	GN, GO, GP	Developmental screening (for example, developmental milestone survey, speech and language delay screen) with scoring and documentation, per standardized instrument
96112		Developmental test administration by qualified health care professional with interpretation and report, first 60 minutes
96113		Developmental test administration by qualified health care professional with interpretation and report, additional 30 minutes
97161	GP	Physical therapy evaluation, low complexity
97162		Physical therapy evaluation, moderate complexity
97163		Physical therapy evaluation, high complexity
97164		Re-evaluation of physical therapy established plan of care
97165	GO	Occupational therapy evaluation, low complexity
97166		Occupational therapy evaluation, moderate complexity
97167		Occupational therapy evaluation, high complexity
97168		Re-evaluation of occupational therapy established plan of care
97550	GN, GO, GP	Caregiver training in strategies and techniques to facilitate the patient's functional performance in the home or community, initial 30 minutes
97551		Caregiver training in strategies and techniques to facilitate the patient's functional performance in the home or community, each additional 15 minutes
97552		Group caregiver training in strategies and techniques to facilitate the patient's functional performance in the home or community

Occupational Therapy and Physical Therapy

Code	Required	Description
------	----------	-------------

	Modifier		
Unattended modalities			
97010	GO, GP	Hot or cold packs	
97012		Traction, mechanical	
97014		Electrical stimulation, unattended	
97016		Vasopneumatic devices	
97018		Paraffin bath	
97022		Whirlpool	
97024		Diathermy (for example, microwave)	
97026		Infrared	
97028		Ultraviolet	
G0283		Electrical stimulation to one or more areas for indication(s) other than wound care, as part of a therapy plan of care—do not bill with 97014	
Attended modalities: require constant attendance of therapist			
95992	GO, GP	Canalith repositioning procedure(s) (for example, Epley maneuver, Semont maneuver), per day	
97032		Application of a modality to one or more areas; electrical stimulation, manual – 15 minutes	
97033		Iontophoresis – 15 minutes	
97034		Contrast bath – 15 minutes	
97035		Ultrasound – 15 minutes	
97036		Hubbard tank – 15 minutes	
Therapeutic techniques with direct patient contact			
97110	GO, GP	Therapeutic procedure, exercises – 15 minutes	
97112		Neuromuscular – 15 minutes	
97113		Aquatic therapy – 15 minutes	
97116		Gait training – 15 minutes	
97124		Massage – 15 minutes	
97140		Manual therapy techniques (for example, mobilization or manipulation, manual lymphatic drainage, manual traction), one or more regions – 15 minutes	
97530		Therapeutic activities, direct (one-on-one) – 15 minutes	
97535		Self-care home management training (for example, activities of daily living (ADLs) and compensatory training, meal preparation, safety procedures, and instructions in use of adaptive equipment), direct one-on-one contact – 15 minutes	
97537		Community work reintegration training (for example, shopping, transportation, money management, vocational activities), direct one-on-one contact – 15 minutes	
97542		Wheelchair management (assessment, fitting, training) – 15 minutes	
Wound care			
97597		GO, GP	Debridement (for example, high pressure waterjet with or without suction, sharp selective debridement with scissors, scalpel and forceps), open wound (for example, fibrin, devitalized epidermis or dermis, exudate, debris, biofilm), including topical application(s), wound assessment, use of a whirlpool, when to perform and instruction(s) for ongoing care, per session, total wound (s) surface area; first 20 square centimeters or less
97598			Debridement, each additional 20 square centimeters (list separately in addition to 97597)

97602		Removal of devitalized tissues from wound(s), non-selective debridement, without anesthesia (for example, wet-to-moist dressings, enzymatic, abrasion), including topical application(s), wound assessment, and instruction(s) for ongoing care
97605		Negative pressure wound therapy (for example, vacuum assisted drainage collection), utilizing durable medical equipment (DME), including topical application(s), wound assessment and instruction(s) for ongoing care, per session; total wound(s) surface area less than or equal to 50 square centimeters
97606		Negative pressure wound therapy, total wound(s) surface area greater than 50 square centimeters
97607		Negative pressure wound therapy (for example, vacuum assisted drainage collection), utilizing disposable, non-durable medical equipment, including provision of exudate management collection system, topical application(s), wound assessment and instructions for ongoing care, per session; total wound(s) surface area less than or equal to 50 square centimeters
97608		Negative pressure wound therapy (for example, vacuum assisted drainage collection), utilizing disposable, non-durable medical equipment including provision of exudate management collection system, topical application(s), wound assessment, and instructions for ongoing care, per session; total wound(s) surface area greater than 50 square centimeters

Orthotic or prosthetic: assessment and training

97760	GO, GP	Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) or trunk, initial orthotic(s) encounter, each 15 minutes
97761		Prosthetic(s) training, upper or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes
97763		Orthotic(s) or prosthetic(s) management or training, upper extremity(ies), lower extremity(ies) or trunk, subsequent orthotic(s) or prosthetic(s) encounter, each 15 minutes

Evaluative, Therapeutic and Rehabilitative

Code	Required Modifier	Description
92606	GN	Therapeutic service(s) for the use of non-speech-generating device, including programming and modification
92609		Therapeutic services for the use of speech-generating device, including programming and modification
92700		Unlisted otorhinolaryngological service or procedure
96125	GN, GO	Standardized cognitive performance testing (for example, Ross Information Processing Assessment) per hour of a qualified health care professional's time, both face-to-face time administering tests to the patient and time interpreting these test results and preparing the report
97129	GN, GO, GP	Therapeutic interventions that focus on cognitive function (for example, attention, memory, reasoning, executive function, problem solving or pragmatic functioning) and compensatory strategies to manage the performance of an activity (such as, managing time or schedules, initiating, organizing and sequencing tasks), direct one-on-

		one patient contact, initial 15 minutes
97130		Each additional 15 minutes (list separately from primary procedure)
97039	GO, GP	Unlisted modality – Requires a description or claim attachment; specify type and time if constant attendance
97139		Unlisted therapeutic procedure – 15 minutes
97150		Therapeutic procedures group, two or more persons
97545		Work hardening or conditioning, initial 2 hours
97546		Work hardening, each additional hour
97750		Physical performance test or measurement (functional capacity) – 15 minutes
97755		Assistive technology assessment (for example, to restore, augment or compensate for existing function, optimize functional task or maximize environmental accessibility), direct one-to-one contact by provider, with written report, each 15 minutes
97799		Unlisted physical, medical or rehabilitative service or procedure– Requires a description or claim attachment
98975	GN, GO, GP	Remote therapeutic monitoring (for example, respiratory system status, musculoskeletal system status, therapy adherence, therapy response); initial set-up and patient education on use of equipment
98976		Supplying one or more devices for remote therapeutic monitoring for respiratory system status: includes scheduled recording and programmed alert transmission, each 30 days
98977		Supplying one or more devices for remote therapeutic monitoring for musculoskeletal system status; includes scheduled recording and programmed alert transmission, each 30 days
98980		Treatment management services for remote therapeutic monitoring, such as for respiratory or musculoskeletal system status; first 20 minutes time in a calendar month, includes at least one interactive communication with the patient or caregiver
98981		Treatment management services for remote therapeutic monitoring, such as for respiratory or musculoskeletal system status; additional 20 minutes in a calendar month, includes at least one interactive communication with the patient or caregiver (List separately in addition to code for primary procedure)

Speech-Language Screening

Code	Required modifier	Description
V5362	GN	Speech screening (articulation)
V5363		Language screening (receptive or expressive)
V5364		Dysphagia screening
