

Updated SSIS Version 24.1 Pilot 2 - Software Release Notes for February 2024
Prepared by the SSIS Quality Assurance Team

MODULE	DESCRIPTION
Adult Protection	Adult Maltreatment Report Allegations tab: The vertical scrollbar correctly scrolls all the way to the bottom of the screen so all fields are visible when the window is sized smaller.
Child Maltreatment	Child Maltreatment Report Victim Information: Cancelling changes to dropdown fields correctly leaves the fields in edit mode (do not appear grayed out).
Documents	Document: APS - Notice of Findings Letter: In the Setup, the drop down for field "Who will receive this notice?" has two reworded options and the self-neglect option has been removed. Also the 3 versions of the letter for self-neglect are no longer available for use.
Documents	Documents- 'APS Case Closure Communication' replaces 'APS Assessment - Notice of No Determination'. The new communication will have a new memo field that allows up to 30,000 characters for summation of interventions and the Setup page will display all Intervention efforts for the vulnerable adult from the AMR Interventions tab. The interventions summation, but not the list of interventions, will merge into the final letter.
Expanded Statewide Search	Copy Clients: Demographic information regarding workgroup Participants can now be copied into Intakes and workgroups from one agency to another without an error message displaying that references that the workgroup was not copied and an error code.
Fiscal - Child Foster Care Report	QRTP Extended Placement Review issue with Child Foster Care report. Payments processed after an Initial Extended Placement review was approved, for clients who have an Out-of-State or Tribal license with a Status other than 'Granted' ('Suspended', 'Pending', 'Closed', 'Probation', or 'Revoked') caused the Child Foster Care report to fail to generate. Child Foster Care Report error displayed as "Error generating the Child Foster Care Report. Please contact the SSIS Helpdesk." Issue has been resolved.
