

Potentially Invalid County Vendor Numbers

Vendors listed on this report have county vendor numbers in SSIS that are not in the numeric format required for V.3.8. V.3.8 has an automated import process for vendors and allows numeric values up to 20 digits. Please change or remove the invalid number(s). If the vendor number in your county accounting system is the same as the county vendor number listed below, change both numbers to a valid numeric value. If your county accounting system uses non-numeric characters in your vendor numbers, please contact SSIS.Fiscal@state.mn.us.

NOTE: In order for the automated process in V.3.8 to work, county vendor #s in SSIS need corresponding vendor #s in the county
