MFIP INITIAL ELIGIBILITY THRESHOLD GUIDE

APPENDIX A-1

The maximum earnings on this initial eligibility threshold chart are calculated assuming that the unit is employed at application, has only earned income, has not been on MFIP in the previous 4 months, and receives the regular Transitional Standard. The earnings amounts listed assume that the unit has no child care expenses, makes no child or spousal support payments and allocates no income to others in the household. Unless otherwise noted, the table assumes working 40 hours per week and 4.3 weeks per month.

This chart should be used only as a guide and not to determine eligibility.

To be eligible for MFIP, the assistance unit's gross earnings minus a disregard of the 1st \$65 of earned income per wage earner plus half of the remaining earned income of the assistance unit must be below the Family Wage Level for that size unit in the month of application. These earnings thresholds apply to a DWP family who applies for MFIP after having received 4 months of DWP benefits. The current state minimum wage is \$9.65/hour for large employers.

*The 2017 FPG amounts are effective for Calendar Year 2017.

This table is used to calculate the amount of earnings needed to exit the MFIP cash portion and eligible only for the food portion.

NOTE: MFIP does not count against 60-month clock if only the food portion is received. A participant can choose to “opt out” of cash portion to stop the 60-month clock.

Unless otherwise noted, this table assumes working 40 hours per week and 4.3 weeks per month. It also assumes no allocation, deeming or sanctions. Calculations are based on MFIP standards effective October 1, 2017. The current state minimum wage is \$9.65 per hour for large employers. The earned income disregard is the 1st \$65 of earned income per wage earner plus half of the remaining earned income of the assistance unit.
