

# What's New in SSIS Version 17.2?

## May 2017

### **Clearing**

Person Merge business rules are updated to include clients with Commissioner Transition or Post Permanency Reassessment data.

### **Child Foster Care Report**

Two new optional columns have been added to the Child Foster Care Claims grids – Basic Amount and Supplemental Amount. These amounts are calculated by multiplying the Basic Per Diem and Supplemental Per Diem times the number of units on claims with service dates starting 07/01/2017.

New proofing message #1188 – Adjustment Rule Code Invalid with Maintenance Claim has been added to Payment Proofing and Claimed Payment Proofing. This message will identify claims where a "Maintenance" claim does not exist any time during the service dates for the same vendor, Rule Code and License #.

### **Child Foster Care Claim Search**

The new optional columns, Basic Amount and Supplemental Amount, are also available from the CFC Claim Search grid.

### **Child Ward**

Business rules are updated allowing for multiple birth fathers on a Previous Parent Verification.

### **Document Templates**

The following documents are updated to add the new DHS logo:

Adoption Placement Agreement

Adoption Placement Decision Summary

ICPC Home Study Request DHS-4268-ENG

ICPC Receiving State's Priority Home Study DHS-4269-ENG

ICPC Report on Child's Placement Status DHS-4267-ENG

ICPC Request DHS-4266-ENG

ICPC Summary DHS-1542D-ENG

Information for Attorney or Family to File Adoption Petition DHS-0329-ENG

Information to Accompany a Social and Medical History DHS-6754B

Notice to Parent Considering Voluntary Placement of a Child

Notice to Parent Considering Voluntary Placement of an Indian Child

Notice to Parent(s) American Indian child in Voluntary Treatment Foster Care

Notice to Parent(s) Child in Voluntary Treatment Foster Care

Post-placement Assessment and Report to Court DHS-0188-ENG 10-12

Social and Medical History for a Child in Foster Care DHS-6754A

Voluntary Placement Agreement for Treatment American Indian Child

Voluntary Placement Agreement for Treatment Non-Indian Child

Extraordinary Level Approval Notice

Extraordinary Level Approval Notice FC to Permanency

Extraordinary Denial Notice – Auto-Denial

Extraordinary Level Denial Notice – Requirements Not Met

Home Study Agency Process Checklist

Home Study Assessment

Home Study Assessment Update

The new DHS logo is merged into the documents – if the logo does not merge contact the SSIS Help Desk.

The Home Study Assessment and Home Study Assessment Update were replaced with new documents in SSIS as well as on eDocs. An upcoming bulletin will provide details about the changes.

The Notice of Child Fatality/Near Fatality was updated to change the instructions at the top of the first page and correct language for recent policy changes. **Note: An RTF header needs to be attached to this document.**

The APS-Notice of Finding Letter and Vulnerable Adult Maltreatment Investigation Summary were updated to merge the Allegation/Determination findings text block. **Note: An RTF header needs to be attached to these documents.**

The APS-Notice of Findings Letter Template selection logic was changed so it runs off a retention period merge field. In previous releases the user answered a series of prompts to select the correct document. This process is now automated and the user is required to enter findings in the APS Maltreatment before creating the document.

Three alleged perpetrators can be merged into the Vulnerable Adult Maltreatment Investigation Summary.

The APS-Notice of Findings Letter merges one addressee name, not two.

The Voluntary Out-of-Home Placement Agreement Non-Indian Child DHS-1776 is updated to remove an unnecessary group of merge fields in the middle of the document.

## **Healthcare Claiming**

Additions and changes to several Claim Rate Adjustment Reason codes and two Remittance Adjustment Reason codes. Description change to HCPCS/Modifier T2038 to Trans Serv Deposits/Moving Exp.

## **IV-E Eligibility**

MAXIS has added a new Reimbursability test for "Reasonable Efforts to Prevent Placement" that will be sent to SSIS via the interface. This will prevent claiming Title IV-E Reimbursability for payments made for service dates that fall in a month prior to the month in which the judicial determination of Reasonable Efforts to Prevent Placement was made by the court for initially court ordered placements. This will be implemented when V17.2 is installed statewide.

## **Out-of-Home Placement Plans**

The Out-of-Home-Placement Plans (OHPP) include extensive updates that will be detailed in a DHS bulletin. Previous versions of the OHPPs can be copied into the new format; however, due to the extensive updates, some of the information from the previous OHPP will not display on the newly copied OHPP. Remind users to edit the "Setup" tab and review all content entered on the "Document" tab screens.

In addition to policy requested changes, a new dynamic grid is implemented on two screens for each OHPP variation – "Face to Face Visits" and "Other Contacts". The new grids allow adding and removing rows with no maximum number stipulated. The intent is to gradually add this new dynamic grid to other state service plans in a future release.

The Out of Home Placement Plan Help document is updated on County Link. [OHPP Help - A guide to completing the Out-of-home Placement Plan](#)

## **Payments**

The Potentially Eligible Northstar Payments report is available from the Payments category in General Reports. The report identifies potentially eligible Northstar Payments that did not create a claim. Summary data provides a breakdown of payments for Family Foster Care (Services 180/181) and EFC-SIL (Service 188). The report assists in analyzing the costs included and excluded in the Northstar Care Fiscal Reconciliation. The summary includes sums and percentages claimed vs. not claimed, summary of payments not claimed by reason and summary of payments not claimed by Special Cost Code.

## **Programs and Services**

There are several description changes for HCPCS/Modifiers.

There are new HCPCS/Modifiers for Service: 446 - Basic Living/Social Skills and Community Intervention that are 'Not automated' with Start date 09/01/2017.

- H2017 U3 - Basic living and social skills, transitioning to community living (TCL), mental health professional or practitioner.
- H2017 HM U3 - Basic skills, transitioning to community living (TCL) by a mental health rehabilitation worker, less than bachelor's degree level.
- HCPCS: 90882 U3 - Environmental or community intervention; transition to community living (TCL) intervention.

- HCPCS: 90882 HM U3 - Environmental or community intervention; transition to community living intervention, less than bachelor's degree level, mental health rehabilitation worker.

### **SDM Child Risk Assessment**

Some existing questions changed order

Question text and answer choices changed on several questions

Several new questions are added and some were eliminated

The tab for supplemental questions is eliminated

Users may increase or decrease one level for a discretionary override

### **Security**

The new User View Log is available only for staff with the Security Function of "Administer System" assigned to their Role. The log is available from Searches/Logs > User View Log. This new log allows the system administrator to see a listing of the available screens accessed by a user, by date, and Primary Key, such as workgroup # or SSIS Person #. It includes the ability to directly navigate to most screens listed. Note that not all screens are included in this log and reports will be added in a future release.

SSIS Administration, User screen: 20 characters can now be entered in the SSIS User ID field.
